FOREIGN NEWS.

WHAT IS DOING IN DISTANT COUNTRIES.

RELATIONS OF CHILI AND BOLIVIA.—THE AUSTRIAN CABINET.—FURNITURE DESTROYED IN LONDON.—WESTGATE DISCHARGED.—REVOLUTIONARY MOVEMENTS IN ECUADOR.

The peace negotiations between Bolivia and Chili have been broken off. It is rumored that Count Andrassy will again become Minister of Foreign Affairs in the Austrian Cabinet. Another destructive fire has occurred in London, this time in a furniture store. Westgate, who was suspected by reason of his confession of complicity in the Phoenix Park tragedy, has been discharged. King Milan takes a hopeful view of the outlook in Serbia. A portion of the Italian press is bitterly hostile to Austria on account of the hanging of Overland. Ecuador is distracted by revolutionary movements.

PERU, BOLIVIA AND CHILI.

PEACE NEGOTIATIONS AGAIN BROKEN OFF.—GENERAL MANEY RECEIVED BY PRESIDENT SALINAS.

PANAMA, Dec. 26.—Advices from the south report the failure of the peace negotiations pending between Bolivia and Chili. Bolivia requested the presence of two Peruvian Commissioners at a conference to take place in Santiago or Valparaiso, but Chili would not consent.

The French man-of-war *Leclaireur* has discovered the rock which in the Antarctic was wrecked.

PANAMA, Dec. 16.—The steamer from Callao has just arrived with advices to the 17th. Iglesias is in the north of Peru trying to bring his Congress together. Caceres is in the central transandine region leaving bank notes right and left, and condemning in explanations the conduct of his rivals to the north and south. Montero is in Arequipa, where he is disbanding his men and discharging employees. He promises to attend a conference in La Paz, at which the terms of the truce between Bolivia and Chili (which are already agreed upon) will be discussed, prior to ratification, with the Chilean Commissioner, who is to visit Bolivia for the purpose. There are thus faint indications that a truce may be arranged from which a peace may spring.

Another proof that a truce in the tide is about taking place is afforded by the action of the Bolivian Congress and the utterances of President Salinas at the reception of General Maney, the newly appointed United States Minister. On presenting his credentials the General made a long speech in which he stated that while the United States felt the warmest friendship for Bolivia "he nevertheless desired to prevent erroneous ideas or hopes from being entertained, and that he therefore considered it necessary to state that these feelings of friendship for Bolivia should not be interpreted as an expression of ill-will to others." He spoke strongly in favor of peace, which, he stated, the United States were anxious to see reestablished, and to promote which, "within the proper sphere, he would cordially contribute by every possible means and by some honorable arrangement terminate the disasters and sufferings produced by a war between nations possessing a common origin and history and which are so closely allied by similar institutions and a similar religion."

Salinas answered at length in a highly complimentary speech of which the following is the most noteworthy paragraph:

"If Bolivia and Peru at any time entertained hopes that the Government of the United States would act energetically in the war in the Pacific, in order to obtain a just settlement—such hopes were not without foundation, since they were based on the policy which was openly declared by Mr. Blaine, the Minister of Foreign Affairs, and the declaration of the United States Minister in Lima, General Harbord. Such authentic declarations, which received due publicity, were certain to inspire some faith in the States which were the victims of injustice. Nevertheless, these hopes, which I have already said had good reason for their existence, were dissipated by the conferences at Vilma and Mar and by the statement subsequently made by Mr. Tresselt, that his Government, while it sympathized with the cause of the Republic, could not conform with the conditions imposed by Chili. From that moment Bolivia understood that its future depended upon itself. To-day this conviction is confirmed by your respectable declaration."

Montero was to arrive in La Paz early in December, and the conferences would at once take place which are to precede the meeting with the Chilean Commissioner.

Floods in the province of Cota-Cota, Bolivia, have destroyed large stocks of casavilla, cocoa, coffee, etc.

The United States sloop-of-war *Pensacola* left Callao for Panama on the 14th, and the *Lackawanna* remained the same day for Honolulu. The *Trojan* started at Callao, where the French sloop *Arctique* and the English sloop *Rocket* are also stationed.

ANOTHER FIRE IN LONDON.

LONDON, Dec. 26.—The two upper floors of William Whiteley's furniture store in Queen's Road, Bayswater, were burned out last night. Notwithstanding the two floors were destroyed the damage is heavy, as the store is one of the largest in London. Twenty-five engines were engaged in subduing the flames. A detached warehouse, six stories in height, belonging to Mr. Whiteley, was also burned out. Mr. Whiteley suffered severely on November 17 by a fire in Westbourne Grove, where he also does business.

The speech created a favorable impression.

THE TRAFFIC IN CHINESE WOMEN.

VICTORIA, B. C., Dec. 26.—Forty Chinese women arrived at this port by the steamship *Valmer*. Thirty-two of the number were sold to Chinamen who live in the United States. Two Chinamen who wanted to secure women brought them before the Chief Justice on a writ of habeas corpus, alleging that they were forcibly detained. The women, however, declared that they were free agents, and the case was dismissed. In the course of the investigation it was proved that the thirty-two women who were sold to the American side were disguised as Indian women. It is feared that the traffic in human beings will be carried on at this port on a large scale next year.

NEWS FROM THE WEST INDIES.

ST. THOMAS, Dec. 18.—The cable between Antigua and Guadeloupe is broken. The cable connecting Jamaica with Colon has been repaired, thus again opening communication by way of the route with South America.

Successful observations of the transit of Venus were obtained in Martinique and Barbadoes. The Danish expedition at St. Croix was less fortunate.

Advices from Demerara state that the weather is favorable for the sugar crop, and a large yield is anticipated. It is expected that it will amount to 140,000 hogsheads. Large shipments of dark crystal sugar have been made, but the high standard of polarization prevents many planters from turning out the desired quality.

ECUADOR DISTRACTED BY REVOLUTIONS.

QUAYACU, Dec. 11.—Matters are lively at present throughout the Republic, and particularly at this port. Five or six different revolutionary movements are under way in the interior. No news is allowed to get abroad here, but advices from Esmeraldas, the second port of the Republic, portray a situation to be yet worse there. Two blocks of the main street facing the leading place have been barricaded. Inside these barricades are the military barracks, the Government offices, the telegraph office, and a few commercial houses and private residences. The women have almost all left the town, some going to Tumbaco, in Colombia, and others, the poorer ones, going up the river in canoes. It is asserted that Venutilla will not remain in power.

Here we believe Eloy Alfaro to be acting. In the north, where General Salazar, who has crossed the Peruvian frontier and seized two or three towns, is destroying the Government in that direction.

Serious diplomatic trouble appears likely to occur between Ecuador and Colombia, in consequence of the former Republic having been flooded and imprisoned in the latter. This publication was inflicted because of the sympathy exhibited by the Colombians with the revolution headed by Eloy Alfaro. The Ecuadorian State has few friends among right-thinking men, so that in the future there is to be no doubt of the success of the endeavors to suppress any expression of feeling.

NICARAGUA AND THE UNITED STATES.

PANAMA, Dec. 26.—The *Centro Americano* of Granada published a long letter from Captain S. L. Phelps, president of the Nicaragua Canal Company, in which he categorically refused to accept the offer of the United States House Committee had modified the statutes of the Canal Company in such a manner as to render several changes necessary in the concession granted by Nicaragua, that the United States had requested the Government of Nicaragua to renounce all rights of sovereignty over a belt of ground three miles in width on each side of the proposed canal, and to take the \$4,000,000 to Nicaragua for the purpose of bribing Government officials and obtaining the before-mentioned modifications of the statutes, which would be the true object of the United States to seize Nicaragua.

GOVERNOR CORNELL'S SUCCESSOR.

ALBANY, Dec. 26.—Mr. Cleveland will be inaugurated as Governor next Monday, but he has decided not to come to the capital till late the present week. This decision, of course, has not the slightest connection with the fact that some thousands of Democrats are seeking office. It is gravely said that business matters detain the Governor-elect in Buffalo.

SANTA CLAUS IN FLAMES.

AN ACCIDENT THAT RUINED A CHRISTMAS CELEBRATION.

MONTGOMERY, N. Y., Dec. 26.—A large number of Sunday-school scholars and friends of the Presbyterian Church met yesterday afternoon in Academy Hall to partake of a Christmas dinner and distribute presents to the scholars. A Christmas tree was placed on the stage. When the curtain rose Santa Claus made his appearance. In passing before the tree his wig, made of long cotton, took fire, and in an instant he was enveloped in flame. He leaped down among the audience, who in their haste to get down the stairs trampled each other. One man had the presence of mind to wrap his coat around the burning victim and force him down upon the floor, thus saving his life and that of many others; for at that instant another gentleman threw an overcoat over his head and another threw a hat over his head, and a third threw a hat over his head, and a fourth threw a hat over his head, and a fifth threw a hat over his head, and a sixth threw
